
POOR FARMER

PROFILE

A simple subsistence farmer who works hard and lives a good life in the Amazon rainforest. Poor Farmer is aware and appreciates the rainforest provides him/her every thing needed to live. A true Brazilian, Poor Farmer has music in his heart and soul. He/she is angry with those who have caused the fires and destroyed the rainforest and feels disempowered and unable to do anything to save the forest.

VALUES

Believes all life has equal right to flourish in the rainforest and it should be respected and looked after.

SPEECH

(like spoken word poetry or rap)

*The forest makes the rain and the waters sweet, the air in our lungs
and the soil at our feet. So big up the forest, respect to the trees, get
up off your butt and down upon your knees! The forest is a place for
all life to grow - you made the fires now there's nowhere to go!*

We have lost the Good Life! Help!

FACTS TO COMMUNICATE CREATIVELY

The role the rainforest plays in sustaining life - including provision of rain and oxygen. Humans are responsible for the fires.
